

1. Google Workspace (Classroom, Meet, Drive, Docs)

- **Privacy:** Google does not use data from Google Workspace for Education core services for advertising and does not sell this information to third parties. [Google Classroom Privacy](#) | [Google Meet Privacy](#)
- **Technical Support:** Visit the [Google Help Center](#) or use the [Report a Problem](#) feature directly within Meet.
- **Accessibility:** Comprehensive guidance on using screen readers, braille displays, and voice typing is available at the [Google Accessibility Help Center](#).

2. Articulate 360 (Rise & Storyline)

- **Privacy:** Articulate collects personal information for account management but explicitly states they do not sell user information to data brokers. [Articulate Privacy Notice](#)
- **Technical Support:** Access the [Articulate Support Hub](#) or submit a [Support Case](#) for specific challenges.
- **Accessibility:** Review the maturity plans and conformance reports for [Rise 360](#) and [Storyline 360](#).

3. Wix (Portfolio Hosting)

- **Privacy:** Wix collects information provided during registration; users are responsible for posting their own privacy policies on their sites. [Wix Privacy Policy](#)
- **Technical Support:** Assistance is available via the [Wix Help Center](#) or their 24/7 Customer Care Chat.
- **Accessibility:** The [Wix Accessibility Statement](#) details their commitment to WCAG 2.2 Level AA standards.

4. WordPress (Portfolio Hosting)

- **Privacy:** WordPress.com provides tools to help site owners comply with GDPR, including privacy policy templates. [WordPress.com Privacy](#)
- **Technical Support:** Account recovery and general assistance can be found at the [WordPress.com Support Center](#).
- **Accessibility:** Learn about building and navigating accessible sites in the [WordPress Accessibility Guide](#).

5. Notion (Organization & Portfolios)

- **Privacy:** Notion acts as a data processor; users maintain ownership and control over the content they upload. [Notion Privacy Policy](#)
- **Technical Support:** Report bugs via the In-App Support widget or by emailing team@m.notion.so.
- **Accessibility:** Notion provides features for keyboard navigation and screen readers; check their standard documentation for updates.

6. H5P (Interactive Content)

- **Privacy:** Processes account and service data to operate their website and provide interaction results. [H5P Privacy Policy](#)
- **Technical Support:** Find fixes in the [Troubleshooting H5P Guide](#) or use the public [H5P Community Forum](#).
- **Accessibility:** Authors should refer to the [H5P Content Authoring Accessibility Guide](#) to identify recommended content types.
